PROFILE

Innovative Front end Developer with 6 months experience building and maintaining responsive websites in (2Dweb Solutions). Proficient in HTML, CSS, Basic JavaScript plus modern libraries and frameworks.

EXPERIENCE

FRONT-END-WEB-DEVELOPER

I am a talented, ambitious and hardworking individual, with broad skills and experience in front end and WordPress development leading projects. Furthermore, I am adept at handling multiple tasks on a daily basis competently and at working well under pressure. The role is responsible for designing, coding, and modifying websites, from layout to function and according to a client's specifications.

MY SOME PROJECT

- <http://anazraza3.epizy.com/>
- <http://cakescrumb.epizy.com/>
- <http://primary.epizy.com/>
- <http://national.epizy.com/>
- <http://pepsi.epizy.com/>

DETAIL ABOUT THE PROJECTS

- HTML ,CSS, JS FRAMEWORKS, CSS/JS LIBRAIES

Holding commands on these languages, frameworks and libraies and with that, i have worked on many website projects , categories and landing pages of small business. I can make websites responsive using Media queries. I also work on wordpress. I make alots of projects using elementor and many using.

DETAIL ABOUT THE TOOLS

- Wordpress + Photoshop PSD

Wordpress is the drag and drop tool as we are living in the futuristic era all the technologies are turning in to easiest formats for clients/User facilities.

Wordpress in an open source content management system (CMS). its a popular tool fopr individuals without anycoding experience who want to bulid websities and blogs.

Expertise in Wordpress.

- Clone any design into Wordpress.
- Creating Landing Pages with complete design functionality with in a day.
- Experience in setting up the online store.
- Can Create an E-COMMERCE websites for both small and large businesses.

DETAIL ABOUT THE WORK

- In October, 2022 Present

I started work in 2D Web Solutions as a wordpress developer. I Started here to get experience and to learn many more. I learnt many other things about it. Now I am still working in it.

LANGUAGE

- Urdu
- English

As we know about everything is going to be beyond internationally and I do accept this thing if you want to get success then you will have to know your targeted audience if you came to know the audience and you do not know it's language it's completely best to me. so as being a developer I have command on my code languages as well as I do have experience in talking to clients and knowing their needs and requirements
